**Think  
about**

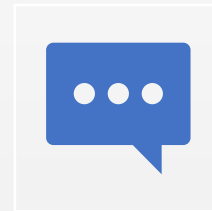

What can people see  
and/or hear?

What messages are  
communicated?

Is that what you want  
to communicate?

Is it accessible?

What messages are communicated?

Is that what you want to communicate?

**Are they conducive to caregivers?**

**What about those in different time zones?**

**Are they convenient for those who have clinical responsibilities or other jobs?**

**What about those who use public transportation?**
